DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claim 10, line 1, CHANGE "A program storage medium" to "A computer readable medium".

Claim 11, line 1, after "A program" INSERT "storing on computer readable medium".

Specification

The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Allowable Subject Matter

Claims 1-11 are allowable.

The following is an examiner's statement of reasons for allowance: Claim 1 is allowed over the prior art of record. The prior art of record, considered individually or in

combination, fails to fairly or suggest claimed decoding apparatus comprising limitation “the decoding means decodes the modulation code on the basis of a modulation code trellis represented by paths corresponding in a one-to-one fashion to overall state transitions in the encoding process of the modulation code in accordance with the variable-length table” structurally and functionally interconnected with other limitations in the manner as cited in the claim and dependent claims 2-8.

Claim 9 is allowed over the prior art of record. The prior art of record, considered individually or in combination, fails to fairly or suggest claimed decoding method comprising limitation “the modulation code on the basis of a modulation code trellis represented by paths corresponding in a one-to-one fashion to overall state transitions in the encoding process of the modulation code in accordance with the variable-length table” structurally and functionally interconnected with other limitations in the manner as cited in the claim.

Claim 10 is allowed over the prior art of record. The prior art of record, considered individually or in combination, fails to fairly or suggest claimed computer program comprising limitation “the modulation code on the basis of a modulation code trellis represented by paths corresponding in a one-to-one fashion to overall state transitions in the encoding process of the modulation code in accordance with the variable-length table” structurally and functionally interconnected with other limitations in the manner as cited in the claim.

Claim 11 is allowed over the prior art of record. The prior art of record, considered individually or in combination, fails to fairly or suggest claimed computer

program comprising limitation "the modulation code on the basis of a modulation code trellis represented by paths corresponding in a one-to-one fashion to overall state transitions in the encoding process of the modulation code in accordance with the variable-length table" structurally and functionally interconnected with other limitations in the manner as cited in the claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Cited References

The prior art made of record and not relied upon is considered pertinent to application's disclosures. The cited references relate to instant application subject matter.
